

Roll-forward skips

The roll-forward skips are the industry's best tool for material handling, waste sorting and waste handling. These skips are well designed, reinforced and powder-coated to provide maximum safety and to deal with rough truck handling. An automatic emptying system is activated by means of a spring pressure plate on the base frame.

The CAM system skips are manufactured in Europe with high-quality materials and components, ensuring a high durability and service life. Available on request: blue, white, orange, yellow, brown, green, grey and black skips, based on the colour code for waste sorting and waste handling. Other colours available on request.

CAM System attachments on:

Characteristics

- 1** Automatic tipping function for a higher level of efficiency
- 2** Designed to offer maximum safety and secured to the carriage by means of a safety chain
- 3** Rubber or nylon castors optional
- 4** Reinforced fork sleeves
- 5** Reinforcements corner for more stiffness of the containers
- 6** European quality
